

# Institut Jacques Monod

General Secretary: Zoubeir Zadvat

Director: Valérie Doye

Deputy Director: Nicolas Minc

Executive Assistant: Géraldine Thouvay

Health and Safety: Annie Dutriaux (coordinator)

## Support desks

### Management & Finance

Head:

Gaëlle Callouard

Deputy:

Marie-Hélène Catala

### Human Ressources

Head:

Lydia Balmy

### Communication

Head:

Charlotte Brancaz

### Computer & Network Ressources

Head:

Joël Marchand

### Store

Head:

Nor-Eddine Baouz

### Media Preparation

Head:

Patricia Woni

### Technical Services

Head:

Laurent Gaichet

## Research groups

Juliette Azimzadeh

**Biogenesis and polarity of centrioles and cilia**

Daria Bonazzi \*

**Quantitative cell biology of bacterial infection**

Nicolas Borghi

**Mechanotransduction : from cell surface to nucleus**

Jean-Charles Cadoret

**Pathology of DNA replication**

Jérôme Collignon

**Regulation of cell-fate specification**

Paul Conduit

**Regulation of microtubule nucleation**

Virginie Courtier

**Evolution and genetics**

Valérie Doye

**Nuclear pores : transport and cell cycle**

Sandra Duharcourt

**Epigenetic regulation of genome organization**

Julien Dumont

**Cell division**

Eve Gazave

**Stem cells, regeneration and evolution**

Thierry Grange/ Eva-Maria Geigl

**Epigenome and paleogenome**

Maxim Greenberg

**Chromatin dynamics in mammalian development**

Antoine Guichet

**Polarity and morphogenesis**

Cathy L. Jackson/Jean-Marc Verbavatz

**Membrane dynamics and intracellular trafficking**

Nikolaos Konstantinides

**Comparative developmental neurobiology**

Benoît Ladoux/René-Marc Mège

**Cell adhesion and mechanics**

Sébastien Léon

**Membrane trafficking, ubiquitin and signalling**

Nicolas Minc

**Cellular spatial organization**

Benoit Palancade

**RNA biogenesis and genome homeostasis**

Lionel Pintard

**Cell cycle and development**

Marie-Noëlle Prioleau

**Chromosomal domains and replication**

Ishier Raote

**Cell compartmentation**

Vanessa Ribes / Stéphane Nedelec \*

**Human neurodevelopment and disorders**

Guillaume Romet-Lemonne/Antoine Jegou

**Regulation of cytoskeleton dynamics**

Reiner A. Veitia

**Molecular oncology and ovarian pathologies**

Katja Wassmann

**Mechanisms of meiosis**

\* These teams are also part of ERL1340 

Le soutien pour la santé. From science to health

## Core facilities

### ImagoSeine

Coordinators: René-Marc Mège and Jean-Marc Verbavatz

### Flow Cytometry

Head: Nicolas Valentin

### Electron Microscopy

Head: Rémi Le Borgne

### Photonic Microscopy

Head: Xavier Baudin

### ProteoSeine

Coordinator and Head :

Guillaume Chevreux

### Animal House

Coordinator: Jérôme Collignon

Head: Isabelle Le Parco

## Technical facilities

### Genomics-Transcriptomics

Coordinators: Thierry Grange and Benoit Palancade  
Head: Caroline Doncarli

### Palaogenomics

Head: Eva-Maria Geigl

### Protein purification

Coordinators: Nicolas Joly and Paul Conduit  
Head: Léa Mammri

## Facilities with EDC

### EnSCORE (neuronal organoids)

Coordinators: Valérie Mezger (EDC), Valérie Doye and Vanessa Ribes (IJM)  
Head: Sandrine Adiba

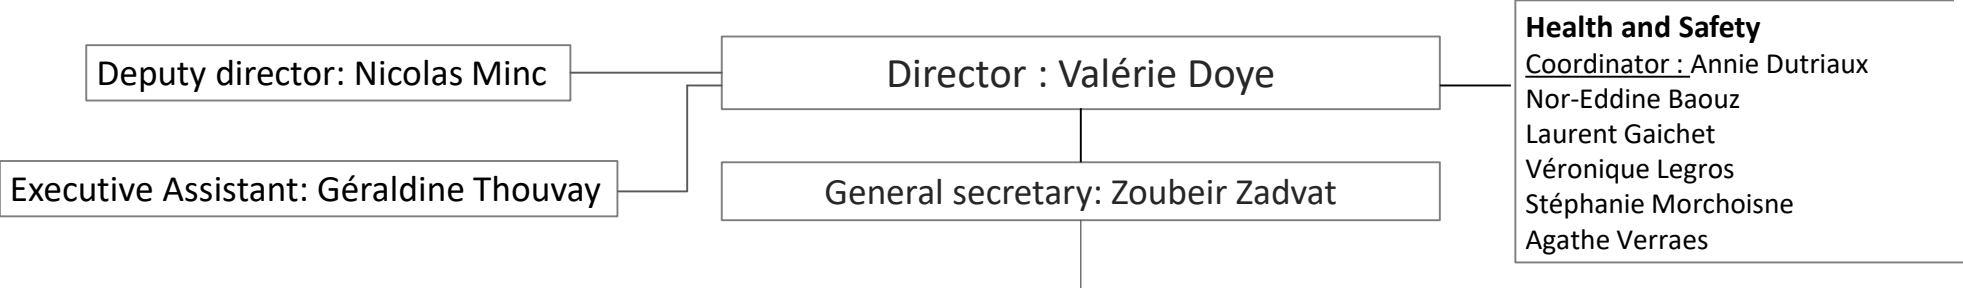

### Decoders

Coordinator: Benoit Palancade (IJM)  
Head: Mohamed Mlih

# Institut Jacques Monod

26 research groups

## Support desks

|                                                                                                                                                                                                                                                          |                                                                                                                     |                                                                                                                                                                                                                           |                                                                                                                                                                                                                                    |
